

## After EXPO - We can see the Actroids again!

# ACTROID<sup>®</sup> expo

The four "ACTROID-expo" models became very famous during the Expo 2005 Aichi, Japan. After finishing the 6-month hard work at the Expo, they have been working in various places.

\*ACTROID-expo  
Co-developed by Kokoro and Advanced Media, Inc. under the "Next-Generation Robot Commercialization Project" of the New Energy and Industrial Technology Development Organization (NEDO).

### Permanent installation of the Actroid has been realized! The Actroid introducing future power At the exhibition booth "NEDO Future Scope"

On the 4th floor of Science Museum (Tokyo)

The Actroid has become a permanent exhibit so that you can come to see it anytime. It is working as an information girl at the renewal opened exhibition booth "NEDO Future Scope" in Science Museum, Tokyo where you can experience a "dream" achieved by a wide variety of technologies. The Actroid is gaining much popularity there among many other robots as an actually operating robot which provides voice interaction experience to guests. Please pay attention to its new costume with a red hat. It is waiting for you in Science Museum!

The Actroid named "Sakura" which was working at the north gate during the Aichi Expo.

Entrance of "NEDO Future Scope"

### You can also see the Actroids in the Aichi Expo Memorial Park!

Two Actroids are to be permanently exhibited in the Aichi Expo Memorial Park.

# 実用化へ向けて実証実験はつづく…

## アーバンエース肥後橋ビル (大阪府・大阪市) 2006年3月9日～15日

ロボットによるオフィスビル案内の実証実験として、ビルを訪れるお客様に音声認識・音声対話によるビル内のご案内をさせていただきました。オフィスの受付嬢として勤めるアクトロイドの将来像がイメージできたのではないのでしょうか。

※NEDO技術開発機構による「次世代ロボット実用化プロジェクト (実用システム化推進事業)」委託事業の一環として行いました。  
協力:NTT都市開発株式会社、ロボットラボラトリー

## ロボットフェスタin銀座2006 銀座松坂屋 (東京都・中央区) 2006年3月25日～26日

愛・地球博で活躍したロボットたちが大集合!  
懐かしい仲間や大勢のロボットファンに囲まれてアクトロイドもうれしそう?

※主催:特定非営利活動法人産学連携推進機構

**In response to requests from all over the world!**

**アクトロイド<sup>DER</sup> goes abroad.**

The popularity of the Actroid is not limited within Japan!  
It is playing major roles also abroad responding to enthusiastic requests.  
There has been a flood of reservations for it. A part of its hard schedule is introduced here.

## “2006 Robot Dream Exposition Taiwan” Traveling exhibition in Taiwan (Taipei, Tayuan, Gaoxiang and Taichung)

The Actroid-DER played an important role in “2006 Robot Dream Exposition Taiwan”, a large-scale traveling exhibition which traveled around Taiwan for 6 months, as a beautiful robot star from Japan. Though it was not accustomed to wearing Kimono, it gave greetings to guests in Taiwan with a smile. The popularity of androids in Asia is more and more overheated.

お待たせしてすみません(m\_m)

**ACTROID  
DER 2**

過密スケジュールでなかなかアクトロイドの予約が取れない、という皆さんに朗報です。  
DERの“妹”計画進行中!  
今度のアクトロイドは歌う?踊る?  
JJモデル並のDER-2にご期待下さい!
