ACTROID DER アクトロイド DER

The Actroid-DER was developed as a robot for rental based on the Actroid-expo which gained popularity during the Expo 2005 Aichi, Japan. The Actroid-DER has more versatility and operability compared to the Actroid-expo. We have received many rental orders since its completion announcement event in June, 2005.

Completion announcement event of the Actroid-DER

Robot Laboratory (Osaka, Japan)

While the Actroid-expo models were frequently covered by the media, the completion announcement event of the Actroid-DER was held borrowing the space of Robot Laboratory in Osaka, gathering a lot of mass media people and the general public as well. The Actroid-DER demonstrated the possibility of serving as a narrator and a booth girl giving a self-introduction in accordance with monitor images.

EVENT REPORT

Dinosaurs appeared in a business area in the middle of a big city!

Urban Dinosaur Live Performance @ OAZO

Marunouchi OAZO (Tokyo)
July 28 ~ July 31, 2005

The dinosaur robot "Tarbosaurus" caused a great flutter in the city of Marunouchi. The dinosaur which appeared in the middle of the city took all of the visitors by storm, including not only office workers but also families on their summer vacation.

In the Marunouchi Building appeared "Spinosaurus" and "Apatosaurus". The city of Marunouchi got hotter with the unexpected appearance of these dinosaurs.
